Hose & Couplings

Hydraquip, Inc. announces ISO: 9001-2008 Certification for Hose & Couplings

Employee-owned fluid power hose and couplings distributor completes important certification process and stands out from the rest.

GRAND PRAIRIE, TX – June 2015. Hydraquip, Inc., a subsidiary of Employee Owned Holdings, Inc. (EOHI), was recently registered to the ISO 9001-2008 quality standards for their High Production Hose & Couplings facility in Grand Prairie, TX.

During a company meeting, Hydraquip President Tim Nichols recognized the team's work in achieving this important designation: "Customer satisfaction is our number one focus. With the ISO 9001-2008, we have improved quality and processes to enhance our customers' experience with Hydraquip."

Seeing an opportunity to increase visibility in the marketplace and create more customer satisfaction, Hydraquip recognized the need for this certification. "With the ISO 9001-2008 certification, Hose & Couplings will stand out among the others through our high quality standards, customer service and our educated team," states Keith Snetting, Sales & Marketing Manager.

Hydraquip is a 40,000 square foot, high production hose facility with 75,000 assemblies produced annually. As one of the few in the nation that is ISO 9001-2008 certified, the Hydraquip Hose & Couplings team is comprised of more than 25 employees throughout Texas, Louisiana, Oklahoma and Colorado to serve you.
